

RESORTDECK

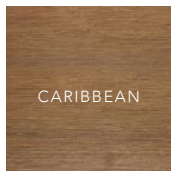

ResortDeck has superior UV protection, fade and mould resistance + are splinter-free and nail-free. The boards do not leech, there is no need for staining, oiling or painting. Available in six natural colours to compliment all architectural styles. The subtle colour variation is the result of a colourmix technology making every board unique. The core is 95% recyclable materials: 35-40% high-density polyethylene, 60-65% wood fiber + an UltraShield polymer layer to protect from moisture.
