

AS SEEN ON THE BLOCK

NEW SEASON DECKING INSPIRATION

 OUTDURE®

OUTDURE®

As the weather heats up and we head back outdoors, you may be looking to update your outdoor entertainment area in time for long summer days and balmy nights. Here are two examples from The Block 2021 of how our QwickBuild framing system and ResortDeck composite decking make light work of an outdoor upgrade, with two very different but equally stylish results.

URBAN OASIS

For year-round outdoor entertaining, Josh & Luke created a seamless indoor-outdoor flow is essential to give the illusion of space and to create a welcoming, comfortable ambience. For this space, ResortDeck in 'Sea Salt' perfectly matches the scheme of the light and airy living area, creating a uniform flow onto the enclosed back entertaining deck and barbecue area, and adjacent inground pool. When the bifold doors of the living space are completely open, it's hard to tell where the outside begins.

ResortDeck in 'Sea Salt' perfectly matches the scheme of the light and airy living area, creating a uniform flow onto the enclosed back entertaining deck and barbecue area, and adjacent inground pool.

RESORTDECK
SEASALT

While a timber deck frame was used for this project, the ResortDeck boards were installed just as easily, using the QwickClips that lock each board in place. ResortDeck is impervious to termite damage and is UV resistant, which means that even over a wooden frame, the decking should hold its colour and strength for years to come. For a more solid deck frame we recommend using QwickBuild aluminium decking frame, it is easy to install and ensures your deck frame will not rot or warp over time like a timber frame.

“For year-round outdoor entertaining, a seamless indoor-outdoor flow is essential to give the illusion of space and to create a welcoming, comfortable ambience”

FAST & EASY TO INSTALL WITH MINIMAL WASTE

Durable decking solutions for all outdoor projects. Quick and easy to install.

Laying the system is so quick & easy to install.

“It’s great it is so versatile – multi-surfaces, heights and substrates”

VERSATILE DESIGN

ResortDeck boards are ideal for completely exposed, multi-purpose outdoor areas such as this as they come with our UltraShield technology, which protects the boards from moisture and UV protection so it doesn't fade in the Australian sun. This also means ResortDeck is an ideal board to frame the pool, which is sure to see a lot of activity over the summer months. ResortDeck combines the look of a freshly oiled deck all year round, which means extremely low maintenance and no need to oil year after year.

“ResortDeck is an ideal board to frame the pool, which is sure to see a lot of activity over the summer months”

A sleek outdoor dining setting and BBQ area along the stone back feature wall completes the airy yet intimate space; an ideal example of how even the smallest of urban spaces can be a sanctuary that seems a world away.

PERFECTLY STRAIGHT & LEVEL, MOISTURE RESISTANT MATERIALS

Nothing beats working with straight, level, durable materials.

“Timber frames warp and buckle and so you can never guarantee it will be straight, but Qwickbuild ensures it will be perfectly straight today and will still be straight in years to come.”

Given it is aluminium it won't rot – it just makes sense to have moisture resistant materials around pools and low to the ground where it is damp - you don't have to worry about it rotting. Maintenance short-term and long-term will be exceptionally low which is fantastic for the new homeowner!

Outdoor Deck Inspiration with Outdure

DURABLE AND LOW MAINTENANCE

UV & moisture resistant products

INNOVATIVE & STYLISH
High-quality tiles, turf and decking
ranges in on-trend colours/finishes

ECO-CONSCIOUS
95% recycled, recyclable decking
+ Green Star rated QwickBuild framing

INDOOR-OUTDOOR FLOW
Achieve a level, flush-finish between
interior floor - exterior deck levels

DESIGN SERVICE, QS &
INSTALLATION SUPPORT
Custom board, tile & frame layouts

SUMMER IN THE HAMPTONS

This perfect Hamptons outdoor space created by The Block 2021 contestants Kirsty & Jesse, comprised of a main covered deck, firepit and adjacent pool. It's important to use the right design elements to create cohesion between all the breakout spaces.

International travel isn't on the cards any time soon, but there's no reason you can't channel a bit of wanderlust into your outdoor entertainment design, such as this Hamptons-inspired space.

RESORTDECK
SEASALT

ResortDeck composite flooring in 'Sea Salt' is a light hue that evokes coastal vibes and brightens up the main covered deck, which is home to a dining setting, barbecue and woodfired pizza oven.

“it's also made from recycled and recyclable materials, which means it's much more sustainable and durable than natural hardwood timber”

Not only is ResortDeck termite- and moisture-proof, making it a long-lasting choice for an outdoor space, it's also made from recycled and recyclable materials, which means it's much more sustainable and durable than natural hardwood timber.

FLUSH LEVEL FINISH FOR INDOOR/OUTDOOR FLOW

A big benefit of Outdure's system is it makes it easy to create a level indoor/outdoor flow. There is no step up when coming into the house - it's a perfect flush finish, it makes it safe and adds value to the home.

“We wanted this to be an extension of our home, so this was a perfect solution to create that flush finish”

ResortDeck's composition and flexible design means that it can be customised for different settings. Here, the decking is repurposed as bench seating that surrounds the firepit, creating a natural flow between the two spaces, and a natural transition from long lunches on the deck to balmy evenings by the fire. Day-to-night summer entertaining is well and truly sorted.

“ResortDeck’s composition and flexible design means that it can be customised for different settings”

DESIGN FLEXIBILITY

Outdure's QuickBuild framing system is very versatile it supports hardwood, and composite decking, tiles or synthetic turf, so “I can easily achieve my perfect look and maximise the spaces – first impressions count!

“I can’t believe the flexibility of Outdure’s system – while we have chosen ResortDeck, we could have picked tiles or turf, it is so easy to lay the ResortDeck – it is amazing”

OUTDURE®

EXTERIOR SURFACE RANGES:

RESORTDECK With UltraShield
Six natural matte colour finishes

CASADECK
MixDure matte colour technology

EXTERIOR TILE RANGES
Structural porcelain vitrified tiles
