

DECK FRAMING SYSTEMS

QWICKBUILD®

SUPPORTS COMPOSITE, HARDWOOD DECKING, TILES, TURF
OVER GROUND, CONCRETE, EXISTING PAVERS, MEMBRANE
FOR DECKS OF ALL HEIGHTS FROM 54MM TO RAISED DECKS

The Benefits

ULTRA FAST, EASY INSTALLATION

Our design tool gives accurate quantification of materials with minimal waste. Easy to handle onsite, basic tools required.

INDOOR-OUTDOOR FLOW

Easy to achieve a flush, level finish between the deck and interior floor (no 'step-down').

ADD VALUE TO YOUR SPACE

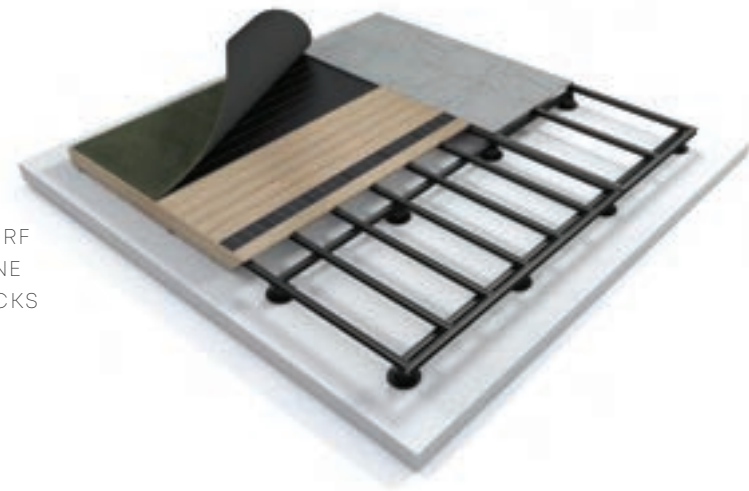

A straight, stable finish that lasts, year after year. Save on install costs and longterm maintenance.

VERSATILE WITH DESIGN FLEXIBILITY

The system allows for details such as cantilevers, curves, stairs, seats, screens, planter boxes, etc.

DURABLE AND LIGHT-WEIGHT COMPONENTS

Manufactured from moisture-proof materials: Global Green Tag certified 6063-T6 structural aluminium framework and 304 stainless steel, PP components + height-adjustable pedestals.

COMPLIANT, LOW-RISK SOLUTION

Ideal over waterproofed areas, like rooftops, balconies as it is a 'floating' system and doesn't penetrate or compromise the membrane.

STABLE AND LEVEL

An engineered solution, up to 5.0kPa UDL, 4.5kN PL with long-span, high-load capacity = substantial reduction of pedestals or posts required.

SOLUTIONS FOR ALL DECK HEIGHTS

Profiles to suit all heights from 54mm to 3M+. Our tool calculates the most efficient configurations.

ACCESS SOLUTION

Add QwickGrates, especially for decks under 100mm in height, as a convenient solution for ventilation + access to drains, services under the deck structure.

The Process

1. GET INSPIRED

Start by researching which deck surfaces suit. Browse our online brochures, order samples from Outdure or see product displays at our retailers.

2. FIND OUT PRICING

To get an indicative RRP price, let us know your surface choice, approx deck size, shape and if you need a deck frame. Either fill in our online 'Find out Pricing' form, or call or email info@outdure.com

3. FREE 'DESIGN & PRICE' SERVICE

Either fill in our online 'Design & Price' form or call. We will ask you about your surfaces, height of deck, when you would like your project completed, and what the deck is over (soil, concrete, etc) Either upload or email dimensions or a plan, we can also supply you a frame design.

4. REVIEW YOUR DESIGN

From your info, Outdure will provide you a surface design layout, a frame design & a shopping list of all the materials required, including RRP.

5. WHERE TO BUY

Outdure will notify your preferred retailer of your project with your material list. For a list of our resellers please visit 'Where to Buy' on our website.

6. PAYMENT & DELIVERY

The retailer will take payment and organise dispatch and delivery with you directly.

7. SUPPORT

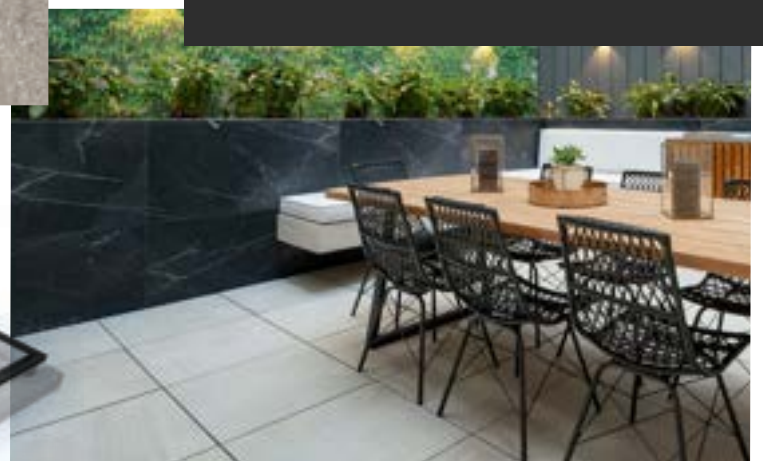

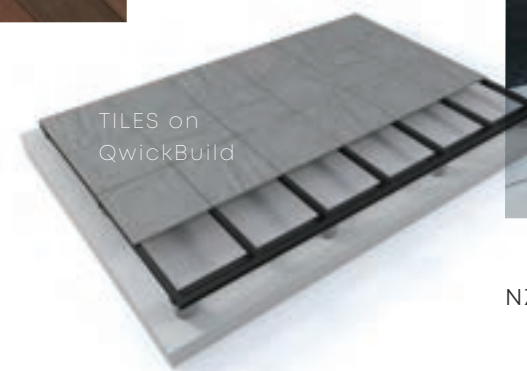

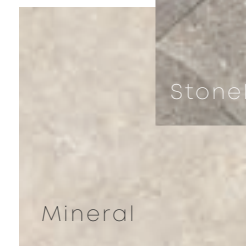

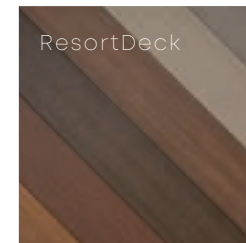

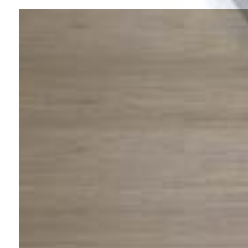

Outdure technicians will be available to talk or video call installers at any stage of the process. Register the warranty & follow maintenance guides.

DECK SURFACE RANGES

ResortDeck®

Superior UV protection, fade + mould resistance, splinter-free & nail-free. Easy care: the boards don't leech, no staining, oiling or painting required. Six natural colours with subtle tonal variations making every board unique. The core is 95% recyclable materials: 35-40% high-density polyethylene, 60-65% wood fiber + an UltraShield polymer layer to protect from moisture. Minimal waste + fast DIY-friendly install. Bal 29 Fire Rating & termite proof.

ResortDeck looks like a freshly oiled hardwood timber deck with the extra benefits of low maintenance properties, durability & dimensional stability.

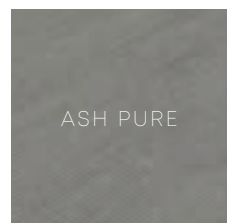

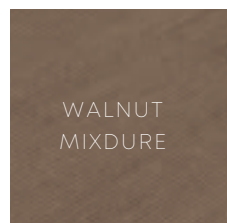

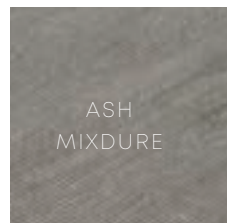

BOARD SIZE: 138X23X2800MM
TRIM FASCIA: 180X15X2800MM
LAY ON TIMBER SUB-FRAME
OR QWICKBUILD SYSTEM

CasaDeck®

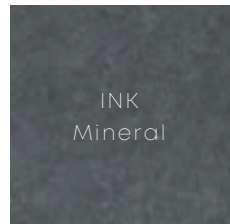

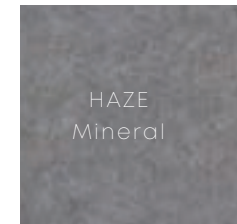

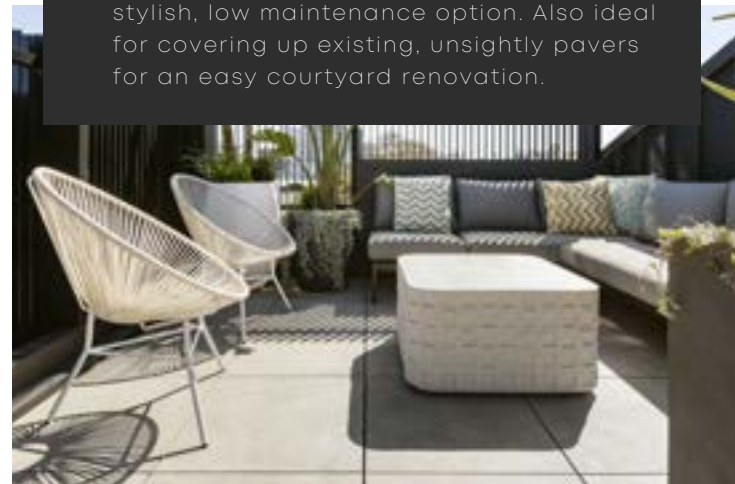

Made from a trusted blend of recycled wood fibers & high-quality recycled PVC. CasaDeck has a high non-slip P5 rating & a textured brushed finish with a sealed underside surface for extra moisture resistance. MixDure colour technology gives a soft tonal variation. Light marks can be evened out with the use of a soft brush.

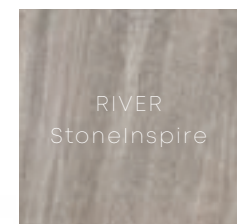

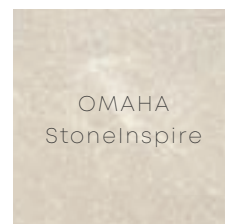

Mineral & StoneInspire

Mineral for a consistent, modern finish, StoneInspire for a marble look. The full-body vitrified porcelain tiles have pigment throughout the entire width to protect against fading, discolouring & scratches. Ideal for high traffic zones, structurally engineered with excellent rigidity for high resistance to breaking load and stress. The ranges have high anti-slip rating with a soft edge, are stain resistant & easy to clean.

Outdure tile decks are a cost-effective, stylish, low maintenance option. Also ideal for covering up existing, unsightly pavers for an easy courtyard renovation.

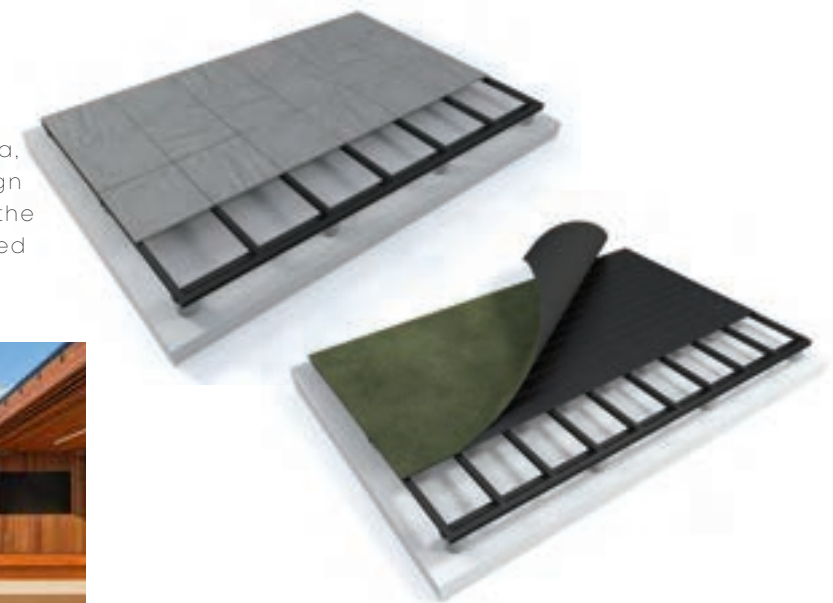

TILE SIZE: 600X600X20MM
INSTALL ON QWICKBUILD WITH
OUTDURE ACCESSORIES TO
HOLD THE TILES INTO PLACE

UltraPlush Turf

For the ultimate low maintenance outdoor area, turf can also be integrated into the deck design using QwickBuild aluminium baseboards onto the framing system. Outdure's durable, FIFA certified turf ranges have a low sheen, matte finish.
