

<b>ISSUED BY</b>	<b>OUTDURE INTERNATIONAL PTY</b>
<b>PRODUCT NAME</b>	<b>QwickBuild Deck Framing System</b>
<b>Item Code</b>	Please refer to the QwickBuild Product Catalogue
<b>PRODUCT DESCRIPTION</b>	QwickBuild Deck Framing System (QwickBuild) is a structural system designed to multiple deck surface types, over multiple substrates. QwickBuild offers a low height, long span, high load substructure framework (up to 5 kPa). QwickBuild is also used as a replacement for traditional timber substructures for any other decking application.
<b>SCOPE OF USE</b>	QwickBuild, when installed in accordance with Outdure's Installation Guide, is intended for use as a deck framing system in horizontal applications. QwickBuild can be used in vertical applications by specific design.
	QwickBuild has been designed to support:
	<ul style="list-style-type: none"> <li>• Composite decking boards</li> </ul>
	<ul style="list-style-type: none"> <li>• Hardwood timber decking boards</li> </ul>
	<ul style="list-style-type: none"> <li>• Exterior structural tiles</li> </ul>
	<ul style="list-style-type: none"> <li>• Synthetic turf (on QwickBuild turf baseboards)</li> </ul>
<b>NZ BUILDING CODE COMPLIANCE</b>	This system is designed, used, installed, and maintained by the supporting technical information and additional conditions and limitations based on the Australian and New Zealand Building Code. Alternative solutions by demonstrating compliance based on the performance requirements of the Building Code for:
	<b>Clause B1 STRUCTURE:</b> Performance B1.3.1, B1.3.2 and B1.3.4. QwickBuild meets the requirements for loads arising from self-weight, imposed gravity loads arising from use, and earthquake impact [i.e. B1.3.3 (a), (b), (f), (g), and (j)].
	<b>Clause B2 DURABILITY:</b> Performance B2.3.1(a), not less than 50 years, B2.3.1(b), 15 years and B2.3.2. QwickBuild meets these requirements.
	<b>Clause D1 ACCESS ROUTES</b>
	<b>Clause E2 EXTERNAL MOISTURE</b> Performance E2.3.3
	<b>Clause F2 HAZARDOUS BUILDING MATERIALS:</b> Performance F2.3.1. The QwickBuild Deck Framing System meets this requirement and will not present a health hazard to people.
<b>LIMITATIONS OF USE</b>	This system cannot be used outside the above scope of use and as specified in the design and installation guides.
<b>INSTALLATION</b>	All design and building work must be carried out in accordance with Outdure's installation guides and technical literature by competent and experienced tradesperson/s conversant with the QwickBuild Deck Framing System. Where the work involves Restricted Building work (RBW) this must be completed by, or under the supervision of, a Licensed Building Practitioner (LBP) with a relevant license class.
<b>MAINTENANCE</b>	QwickBuild requires normal maintenance to achieve the expected service life as detailed in the QwickBuild Maintenance Guide and Schedule document.
<b>DECLARATION - BAN AND WARNINGS</b>	This product has never been subject to any product warning or ban under section 26 of the New Zealand Building Act 2004.
<b>VALIDITY DATE</b>	The validity date is dictated by the earliest renewal date of any relevant testing or appraisal documents. This is: 30/04/2012
